VANDANA LODHI

WEB DEVELOPER

PROFILE

I'm Highly skilled and motivated Web Developer with a passion for creating innovative and user-friendly web solutions. With an experience in the field of web development, I specialize in front-end and back-end development, proficient in a wide range of programming languages, frameworks, and tools. My expertise lies in crafting responsive and visually appealing websites that meet client objectives and enhance user experience.

WORK EXPERIENCE

- **Avyaan Management Pvt. Ltd** AUG -2023
Front End Developer
 - I completed a 45 days internship at avyaan management as a web developer and learned a lot and understood the work experience at industry level. Here, i worked on HTML, CSS and javascript.

PROJECT

- **Employee Management System (EMS)** MARCH - 2024
Our Employee Management System is a comprehensive Java application built using JDBC and MySQL, designed to streamline the process of managing employee data within an organization. With full CRUD (Create, Read, Update, Delete) functionality, this system empowers administrators to efficiently handle employee information, ensuring accuracy and accessibility at every step.
- **Learning Management System (LMS)** AUG - 2023
Our LMS, powered by MERN (MongoDB, Express.js, React.js, Node.js), facilitates user reg., course management by admins, user subscriptions, secure data handling via MongoDB & payment integration with Express.js. User-friendly React.js UI, email notifications, rigorous testing, compliance with data regulations, regular maintenance, and robust user support are key features.
- **Other - Chat Application** FEB - 2024
Chat application utilizing JDBC, MySQL, and Java for real-time messaging, user authentication, and secure database management, fostering seamless communication.
